

MAVA - Summer 2020 Course Descriptions

Beginner Google Classroom and Google Tools

August 3rd, 4th and 6th (Monday, Tuesday and Thursday), 9am to 12pm

Target audience: This course is designed for participants who are just starting their journey with Google Classroom and Google tools. Participants may have some experience using Classroom (by choice or not by choice), but would like a refresher or to explore introductory features.

This training will cover a variety of Google Classroom and Google tools including (but not limited to): Setting up your Classroom, posting on the stream, creating assignments and materials, organizing and understanding your Google Drive, share settings, using Google Calendar, and more. Discussions on best practices and strategies will be included, as well as time for actually developing your Google Classroom for use in the fall. *Upon completion of the course, participants will be comfortable using Google Classroom and basic Google tools.*
